Why Me?

I learned about Chorale before I got to BC because of dedicated officers. They have always been welcoming to newcomers, and I want to recreate that same greeting I received for future Choralers. I have experience from high school serving as president of a music honor society and know how to build musical excellence and community. Every Choraler should be proud of the group's work and be excited to sing with this talented choir at rehearsals and concerts, regardless of musical background. This group has room to grow, and I'd be honored to lead the next era of the Chorale!
